Kalsoft participates

in the DAWN Asia Finance Conference 2008!

KalSoft has announced a new brand created for financial institutions during the DAWN Asia Finance Conference 2008 on June 17, 2008, in Karachi. The theme, "eBanking Convergence - A Leap Ahead", was attended by some of the largest names from the technology and banking sectors. The Banking & Financial Tech Conference is one of the leading events of Pakistan's banking sector and plays a vital role in improving communication between the various financial institutions and technology companies. Events such as these significantly promote innovation in all areas of operations and are vital for developing the financial sector.

"Pakistan's banking sector is one of the fastest growing and most high-tech industries in the country. As with all service sector companies, banks operating in Pakistan need to

incorporate innovation into every aspect of their operations to be successful in today's fast paced, competitive world. Events such as the Banking & Financial Tech Conference 2008 are a significant development for Pakistan as they give financial and technology sector companies a level platform to interact and share their insights and ideas. These conferences play a vital role in boosting innovation and thereby, the quality of services that these institutions offer. It is an honor for KalSoft to be

participating at such an event and this conference will significantly enhance our understanding of our clients' needs", stated Khurram H. Kalia, CEO KalSoft. With constant innovation so vital for aggressive growth in the financial sector, Dawn's Asia Finance Conference will play a pivotal role in developing the country's banking infrastructure and improving their service deliverability to make a positive impact on the economy. ■
